

***Engineering Program
Lifetime Achievement Award***

presented to

Charles D. Holland, Ph.D.

President, Texas Institute for Advancement of Chemical Engineering (TIACT)
Professor Emeritus of Chemical Engineering Former Department Head,
Chemical Engineering, Texas A&M University, 1964-1987

April 6, 2000

Dr. Holland is honored for lifetime achievement in chemical engineering education, research and leadership. For almost a quarter-century, he guided Texas A&M chemical engineering through its period of greatest change and growth, setting standards for excellence that helped create the department's current reputation as one of the nation's largest and best. He is the world's leading authority on multicomponent distillation, a renowned researcher and author of eight textbooks. As founder and president of TIACT, he has become the nation's premier spokesperson on the positive benefits of the chemical industry and related health issues. Dr. Holland continues to dedicate his considerable leadership to solving challenges of the chemical industry in the 21st century.

To All My World War II
Shipmates of the U.S.S.
Sproston, DD577

I dedicate this Award to
you in recognition of all that
you did to bring us safely
through World War II to live
out the rest of our lives in
freedom and the pursuit of
happiness. Thanks.
